

Transfer Machines

Europa's Heat Fusion Machines represent the ultimate in technology for the application of all heat fusion transfers. A combination of high quality Design and Engineering ensure many years of trouble free operation.

The HF4000 and HF5000 have been engineered to the highest standards using a combination of computer controlled electronics and mechanical perfection. Their stylish, compact design and sturdy reliability make them the ultimate machines for the application of heat fusion transfers onto T-Shirts, Sweatshirts and almost any garment for the promotional industry.
